Preparing For Your 3D Tour & Floor Plan Scan

In addition to the Residential Pre-Shoot Checklist, we recommend the following for a successful 3D Tour / Floor Plan scan

IMPORTANT INFORMATION

- 3D Tour and Floor Plan scans take more time onsite after all still images have been captured
- Photographers will scan the entire property for a 3D Tour and Floor Plan
- Items cannot be moved from room to room during scans
- Our photographers will not touch any personal items while on-site
- 3D scans cannot be edited; please remove any items you do not want to be seen
- All people and pets should leave the property so they are not visible in the 3D Tour scan

HOW TO HAVE A SUCCESSFUL 3D/FLOOR PLAN SCAN

- Clean and prepare the home before the photographer arrives
- Declutter and remove items that you do not want to show in the 3D scan
- Remove any religious symbols from view
- Turn off ceiling fans, TVs, and other moving objects
